

Welding

Certified welders warrant high quality

All types of welding (aluminium, steel, and stainless steel) can be performed at IQ Metal, and we always make sure that we meet the highest quality demands.

Our welders are regularly certified by external certification organizations ensuring a consistently high quality.

Advantages

- Welding of aluminium, steel and stainless steel
- Certified welders
- High quality

Welding

MIG
TIG
Stud welding
Resistance welding

Materials

Steel
Stainless steel
Aluminium

- Design & construction
- Laser cutting
- Turret punching
- Bending
- Machining
- **Welding**
- 3D measurement
- Finishing
- Surface treatment
- Assembly
- Sourcing and logistics
